

COMMUNICATED.
To the City Council of Alexandria:
 The humble petition of the Town Clock further sheweth:—That your petitioner, in setting forth its striking grievances, on a former occasion, deemed it unnecessary to enter so minutely into the subject as to suggest to your abundant wisdom a means by which a better face might be put upon its affairs. But your petitioner continues to be so heavily weighed down by the constant recollection of its old regularity, in contrast with its present anomalous and Janus-like condition, that it is constrained, a second time, to bring the matter to your notice. Happily, your petitioner is not laboring under any old attack of the spleen—all its ailments (and they have not been few) are comparatively of recent development, proceeding mainly from disordered bowels—and it hath, therefore, good ground to hope that a power even short of the County Court may be adequate to its relief. Indeed, your petitioner is well convinced that nothing more is needed than a gentle purgative, and it respectfully suggests that a prescription for the same be placed at once, by your honorable bodies, and placed in proper hands to be timely administered; and your petitioner, in the connection, most earnestly entreats that it may be protected against the operations and experiments of quacks, having on a former occasion suffered so sorely from the extraction of its teeth, and their unskillful replacement, that its face has ever since been, and to this day continues to be, distressingly awry. Your petitioner hesitated to approach you with this further application, and would have declined altogether, but for the apprehension that it might already be fixed in that dreadful condition to which some of your fellow-citizens would consign it "eventually." And although your petitioner is unwilling to believe (and seriously fears) that it is yet *desperado*, in the stronger sense these hyperphlogias may be construed to import. Your honorable bodies nevertheless may be assured, in all earnestness and sincerity, that whether these starchy symbols do really relate to unmentionable regions, or whether they are the spangles of cast-off regimentals, placed, in modest substitution, for the name of the wearer, it is in very truth of little moment, since to be consigned either to the one or the other, is much the same to your petitioner. May it please, therefore, your honorable bodies, to adopt some mode of their honorable body, in this, its hour of adversity.—*May the good works of your petitioner, though insufficient of themselves unto salvation, come in aid of its prayers to this end, and your petitioner, as before, will continue to pray for you.* THE TOWN CLOCK.

COMMUNICATED.
To the Commissioners of the Sinking Fund of the State, in their report to the present General Assembly, say that the State ought not to tax its own securities, and should prohibit other corporations within the State from taxing them. If this recommendation be carried out by the Legislature, it will have the effect of appreciating the value of these securities within the State. It has always appeared singular that the State should tax her own bonds; and more so that she should permit it to be done by the town corporations, &c. Under the existing state of things, a non-resident of the State is exempt from this burden upon our own people; and the towns may impose so heavy a tax as to render them unmanageable within their limits. It would seem, too, that the City should be prohibited from taxing their own bonds, and I trust this matter, too, will receive the attention of those interested. GOOD FAITH.

Since the 1st of November about 250,000 bbls. of flour have been exported.

 VIRGINIA LEGISLATURE.—There were 40 members present in the House of Delegates, on Wednesday. A large number of bills were advanced on the calendar: Among them, one incorporating a company for the construction of a railroad from Richmond to Lynchburg. A resolution was offered, enquiring into the expediency of increasing the salary of the bond of the Penitentiary Store Keeper.

THE CLIPPER SHIP GREY EAGLE.—The telegraph has already reported that the clipper ship Grey Eagle, from City Point, Va., bound to Rio de Janeiro, was spoken off Cape Hatteras, dismantled, and that seven passengers were taken off by the steamer Columbia, and carried to Charleston, S. C. The Grey Eagle was freighted with oil, by the Messrs. Hasall of Richmond. The passengers who were taken off by the Columbia, were Dr. W. W. Banks, lady and servant, George Harvey, Miss Louisa Hancock, Miss Josephine Harrah and Geo. Rutter. The five last named arrived in this city yesterday morning, from Charleston, and we understand that Dr. Banks (U. S. Secretary of Legation to Brazil) has returned to Hampton. The Captain of the Columbia offered to assist her, but the Captain of the Grey Eagle declined the offer unless a price was named for the service. It was, moreover, his belief that he would be able to work the ship into Charleston.—*Rich. Disp.*

AN ESCAPE.—Jno. W. Sherman, convicted and sentenced to the Penitentiary, at the last Circuit Court, of Culpeper County, for advising a negro to abscond, broke jail on the night of the 25th ult., and has not yet been heard of. He left a very plain note, addressed to several persons, thanking them for their kind wishes to him while in prison. The Blue Ridge Republican says that he was aided in his escape by white men.

Mr. Burger, a student at the University of Virginia, from Pittsylvania County, died of typhoid fever on Wednesday last. Mr. McGehee, a farmer, residing a few miles from the University, died of the same disease on the same day.

LOCAL ITEMS.
 THE STRASBURG EXTENSION.—The Winchester Virginia, comments, but not in an unfriendly tone or spirit, upon what it calls the "trouble in Alexandria," in relation to a proposed extension of the Winchester and Potomac Railroad, i. e. the Baltimore and Ohio Railroad, to Strasburg. We hardly think it necessary to keep up a discussion of the subject in this form, for the matter is so settled in the Legislature, before which it is now, and enforced. We have repeatedly before given our opinions, in relation to the impolicy and inexpediency of the proposed extension, and now that the subject is revived, we have reviewed them, without prejudice or passion, and they remain unaltered. Indeed, we do not think that Winchester itself has much to gain or care for, if it could procure the extension; and, so far from wishing to injure the trade or business of that place, we desire to see it flourish and prosper. As, especially, as we hope to have it soon in direct communication with us, by any other Railroad. Upon the reasons presented in the memorial of the citizens of this place, and the resolutions of the Common Council, we are willing to rest the correctness of the opposition to the Strasburg extension, manifested in Alexandria. We do not deny any "rights" elsewhere, or seek to procure a monopoly here—but we do contend that where the interests of the second best commercial port in the State, of two of the most important railroads, to which the State has largely subscribed, and the general prosperity of the Commonwealth as it is effected more or less by these interests, are to be sacrificed or placed in jeopardy by a project designed to promote principally the trade and business of Baltimore, we, too, have "rights" which ought not to be disregarded. "Free trade, and free roads" are well enough—but self preservation is the first law of nature—and state welfare should be the first law of Legislators.

LYNCHBURG AND NORTH CAROLINA R. R.—The Lynchburg Virginia has a long article in defence of the proposed Lynchburg and North Carolina Railroad, and argues to show that Baltimore never can command, by way of Alexandria, the trade passing through Lynchburg, as against Richmond and the neighboring Virginia cities; for the reason that the conditions of cheapness and proximity, (as measured by cost of transportation,) do not and never can exist. It seems to think that Richmond must get the larger portion of the trade. The friends of the Orange and Alexandria Railroad have always contended that the proposed road would be a valuable aid to their own work, as likely to draw the trade and produce to this place, and if the same facilities and inducements are held out here, as elsewhere, that it would compete for the additional business created. Letting trade to Alexandria, should not be confounded, with bringing it to Baltimore.

In Baltimore, there are about twenty establishments engaged in the preparation of oysters for the southern and western markets, who keep employed 600 shuckers, besides 150 men for preparing the packages for transportation. During the winter season these prepare and ship about 12,000 bushels per day, one establishment alone shipping 7,000 bushels, which are scattered all over the West as far as Nebraska Territory. Besides the men employed there is a quantity of machinery. The whole outlay of the trade by the time the oysters are ready for transportation, is about \$500,000. The oyster trade, is also, increasing in Alexandria.

A WORD FOR THE CARRIERS.—The Carriers of the Gazette will to-day present their patrons with a beautiful address and other useful information, handsomely printed, in return for which, and for their faithful services during the past year, they hope to receive a small reward.
